

**AIR CHAIR**  
**Foil & Seat Sealer**  
**Performance Enhancer & Tarnish Inhibitor**

**Directions For Use**

1) Surfaces must be polished, free of all tarnish, recommended use of gloves for each procedure.

2) Before applying, wipe all surfaces with rubbing alcohol to remove all residue on aluminum.

3) Use clean, dry, lint free, soft, cotton cloth (Size 4x4) Apply a thin wet continuous film. Allow it to get cloudy but not dry. Immediately buff off to a high gloss. Overlap material to insure all areas are covered, repeat step 3 three times. Used sparingly 1 can will last a full season.

4) At first signs of tarnishing, repeat Steps 1, 2 & 3.

Order yours now! Only \$34.95 per can.

Please note: Not for use on powder coated seat towers. After each use of Air Chair, wipe dry with a clean cloth, spot polish as needed. Re-polish and reseal as necessary.
